

PROSPERITY 32304

www.TCC.FL.edu/32304

Takeaways:

- TCC has stepped up to serve as a ZIP Code-level leader for 32304 in order to convene and support a network of other community leaders who can help address the 10 root causes of poverty.
- *Prosperity 32304* was established to:
 - a. Identify promising practices for combating poverty,
 - b. Connect those experiencing poverty with the resources they need to prosper, and
 - c. Monitor outcomes to ensure effectiveness of the network's efforts.
- There is no finish line for this work; next steps include continuing to gather promising practices, expanding the network, continue to gather data and outcomes to share, drill down to the census tract-level data, conduct a deliberative forum with local residents, and develop the framework that can be replicated in other communities.
