SUBJECT: 2021 FCS Textbook Affordability Report

Item Description
This item presents the 2021 textbook and affordability compliance report.

Overview and Background
The 2016 legislative session created new accountability measures for Florida College System governing boards for overseeing the affordability of textbooks and instructional materials.

According to Florida Statute 1004.085 (8), the Board of Trustees of each Florida College System Institution is required to submit a report to the Chancellor of the Florida College System by September 30th. The report must contain the textbook and instructional materials selection process for general education courses with a wide cost variance. Additionally, the report must contain TCC's compliance with at least 95% of all courses and course sections textbook information being posted for students at least 45 days before the first day of class for each term.

The attached report summarizes TCC's compliance with textbook affordability, and TCC has 94% of all courses and course sections textbook information being posted for students at least 45 days before the first day of class. The college continues to make gains in lowering cost of materials for students, including expanding high enrollment general education courses that utilize Open Educational Resources (OER) for all sections.

Funding/ Financial Implications

Past Actions by the Board
The Board has approved the textbook and college affordability compliance report in the past.

Recommended Action
Approval of the 2021 report for submission to the Florida College System Chancellor.

Affordability remains a top priority for all 28 Florida College System (FCS) institutions. The Division of Florida Colleges requests data and information related to college affordability initiatives and textbook and instructional material affordability pursuant to sections (ss.) 1004.084 and 1004.085, Florida Statutes (F.S.). By September 30, 2021, each college must input institutional responses for the 2021 FCS Affordability Report via https://www.research.net/r/2021FCSAffordability. If you have any questions about completing the report, please contact Hayley Spencer, Director of Research and Analytics, at Hayley.Spencer@fldoe.org.

This Word template is provided for planning purposes only. All responses must be uploaded in the survey instrument.

Textbook Affordability

8. Describe your institution's selection process for textbook and instructional materials for all high-enrollment courses and any general education courses with a wide cost variance.
    The choice of textbooks is a divisional responsibility with the actual selection being a function of the faculty teaching a specific course. Each textbook selection cycle adheres to a comprehensive process where all faculty members participate on some level. Every two full calendar years, each program assembles a textbook committee. The process begins with the committee developing a set of criteria by which they will evaluate the strengths and weakness of the current textbook. If the committee selects to explore other options, the course coordinator or any other committee member is charges with soliciting publishers for copies of its textbooks and/or ancillary materials. Each committee member evaluates all textbooks and ancillary materials brought forth by the committee. The committee narrows the options and presents the finalists for the faculty vote. After collaboration, the faculty member(s) concerned make a recommendation to the dean/director.
