

GRATITUDE REPORT
2016-2017

Annual Report

We are grateful to YOU for your investment in student success at Tallahassee Community College!

Being at the helm of Tallahassee Community College during our 50th anniversary was one of the greatest honors of my career. As we celebrated the rich legacy of this institution, we were able to reflect on how far we've come and discover just how many lives have been changed because of our College.

TCC started in 1966 with 698 students in borrowed space at Godby High School. Today we serve nearly 40,000 credit and non-credit students annually in hundreds of classrooms across seven locations in three counties. Class offerings have expanded and curricula have been infused with technology. Buildings continue to be added to accommodate emerging needs of our students and our community. And we are consistently ranked as one of the top two-year colleges in the nation for our return on investment and student success.

However, we would not be where we are today without the important work of our TCC Foundation. Thanks to our generous community of supporters, the Foundation conducted the most successful comprehensive campaign in TCC's history this past year, the *TCC. We Rise* campaign, which raised more than \$14.5 million to fund an enormous range of projects and scholarships.

We are delighted to present this report as an update on all philanthropic activities and investment results from the 2016-17 fiscal year.

A handwritten signature in black ink that reads "Jim".

Jim Murdaugh
President, Tallahassee Community College

I am truly grateful to you for your support of TCC and our students. The seeds sown this year will be reaped for generations to come. Together we have built a brighter future for our students and our community.

Thank you.

Community is the key word for Tallahassee Community College. Our community of counties, students, faculty and staff, and donors has made 2016-17 a year for the record books. It is with gratitude that this annual report highlights all that each of these entities has contributed to make our College a top-tier institution. ***Thank you.***

Having been able to sit on the selection committee for scholarship applications and know that today it takes three times longer to read all the qualified applications as it did even three years ago is only one indicator that the Foundation is doing its job. We are reaching more students in need and honoring worthy students with awards. ***Thank you.***

Having been able to see the three counties of Leon, Gadsden and Wakulla all take on new and renewed enthusiasm for the mission of our College. By encouraging more students to choose TCC first, in supporting new programs with donor dollars, and by celebrating successes with increased participation in our many college activities. ***Thank you.***

Seeing the faces of the faculty as our donors — one classroom at a time — have begun to change the learning environment of the College. Providing much needed private dollars to renovate the technology and create collaborative environments that foster a more engaging educational experience. Showing every student that philanthropy is alive and well at the community college level. Our future alumni seeing what our alumni are doing to ensure they get the best. ***Thank you.***

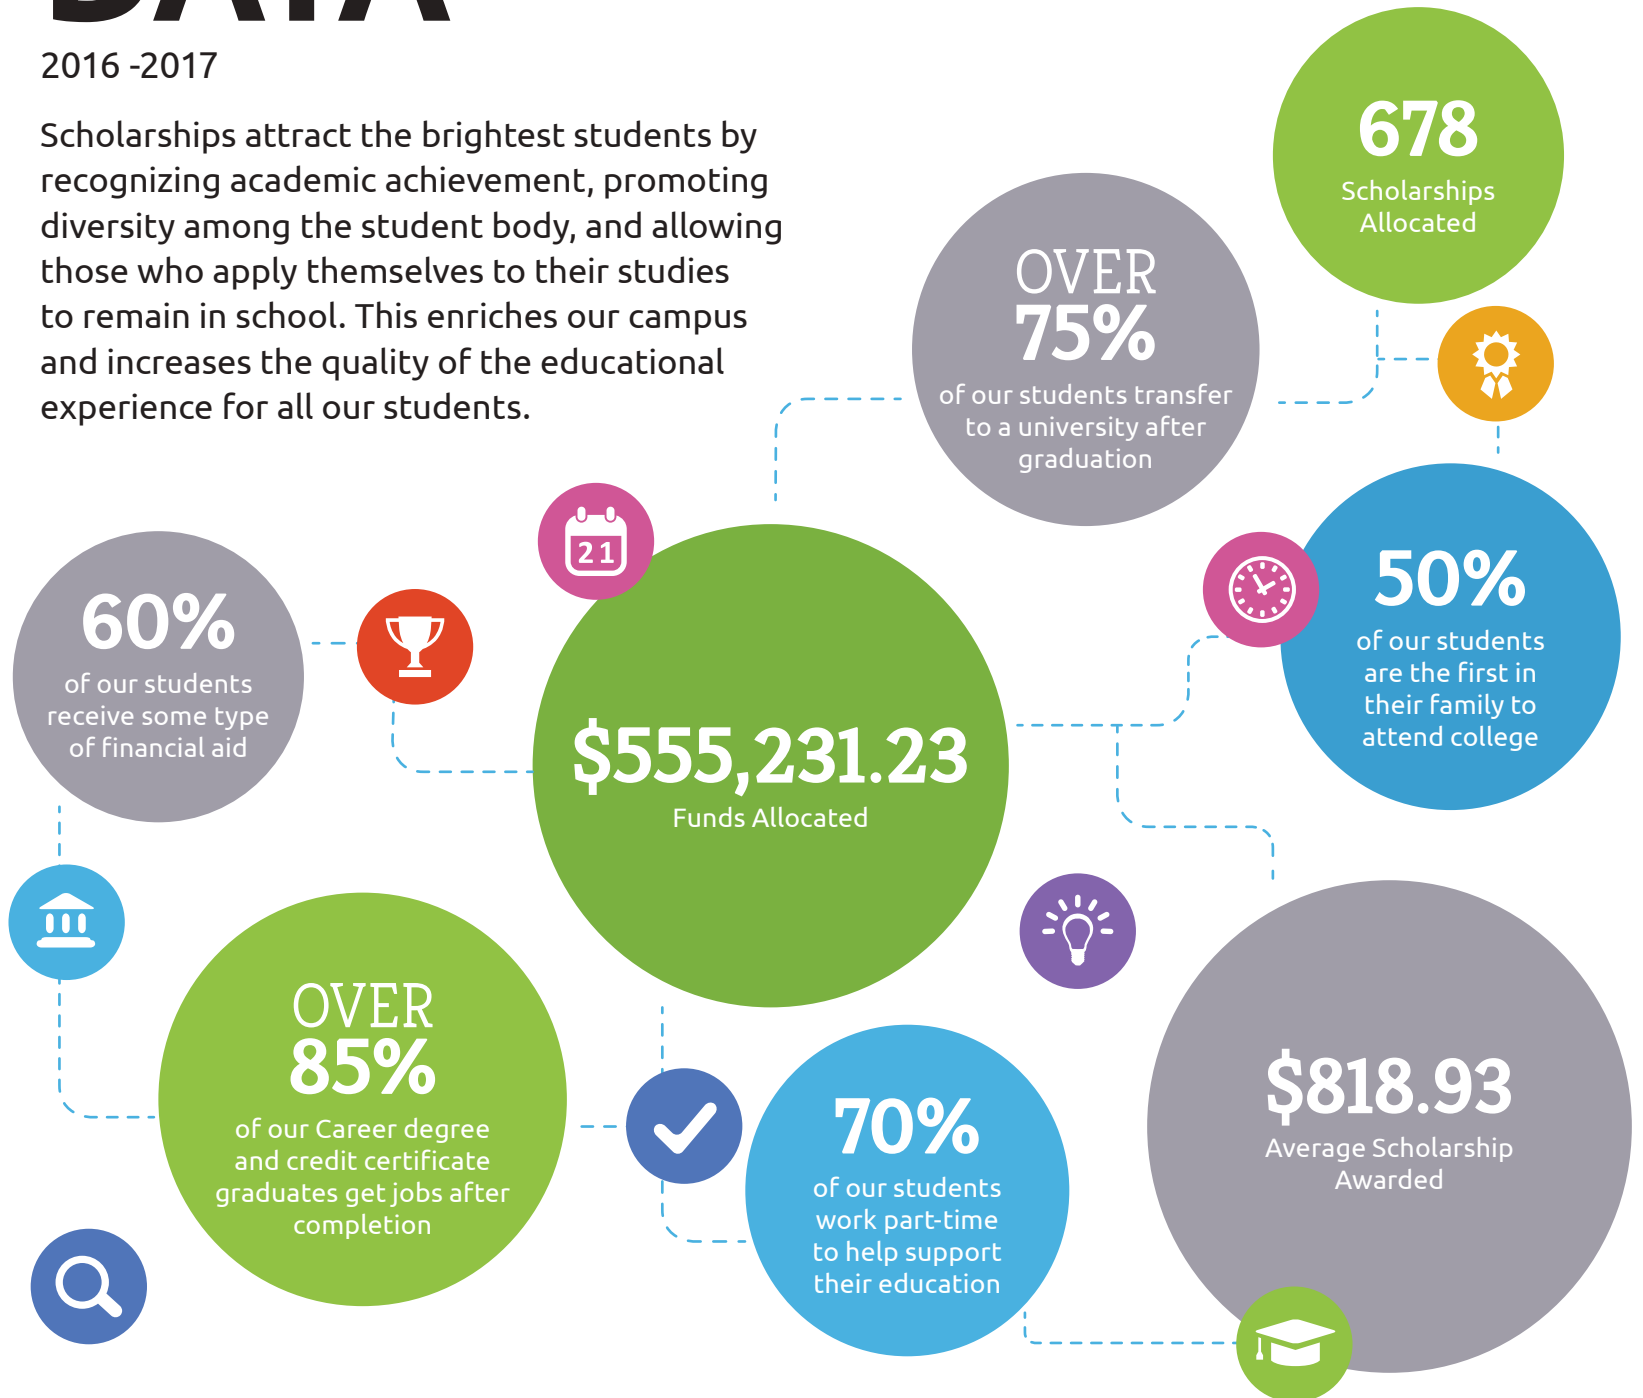

It has been one of the greatest joys of my life to serve this Community College on the Foundation Board, and to lead this dedicated and giving group of individuals. Each day of this last year one of these people was making a difference. Each took on the challenge of finding donors, forging the path for future alumni or creating a legacy for new Foundation board members. ***Thank you.***

Pamella J. Butler
President, TCC Foundation Board of Directors
TCC Class of 1977

SCHOLARSHIP DATA

2016 -2017

Scholarships attract the brightest students by recognizing academic achievement, promoting diversity among the student body, and allowing those who apply themselves to their studies to remain in school. This enriches our campus and increases the quality of the educational experience for all our students.

Scholarships

The generosity of individuals, companies and foundations to the TCC Foundation each year pave the way for students with financial needs to complete their studies for transfer to the baccalaureate and to attain professional careers. In 2016-2017 the College Foundation awarded scholarships to over 670 TCC students providing over \$555,000 in financial aid. Thank you to our donors for **choosing to invest in TCC!**

College Innovation Fund

Instructional Technology Laboratory

This project created a collaborative space for faculty to use in producing dynamic supplemental materials in the form of videos for their courses. Students were recruited to help build the instructional technology lab, which gave them hands on experience in the STEM Center. The STEM Center also collaborated with TCC Online in developing innovative approaches to both creating and delivering instructional content.

Silencing the Static in Digital Instructional Videos

This project provided the tools needed to enable faculty members to create videos for the flipped classroom (a teaching methodology that involves doing activities typically done in the classroom outside of the classroom). In the flipped classroom, students use class time to complete their homework and projects while they have access to the instructor for immediate feedback.

Godby2TCC Project

This is an innovative program designed to introduce high school students to Tallahassee Community College. The inaugural event was held at Godby High School, and over 200 graduating seniors participated. The program included engaging introductions to TCC's social and academic clubs, such as our award winning Forensics Team and Brain Bowl. It also introduced students to the Honors Program, Ambassador Program and STEM Programs. The day also provided sessions on scholarships and an open lab workshop where students could apply to TCC onsite.

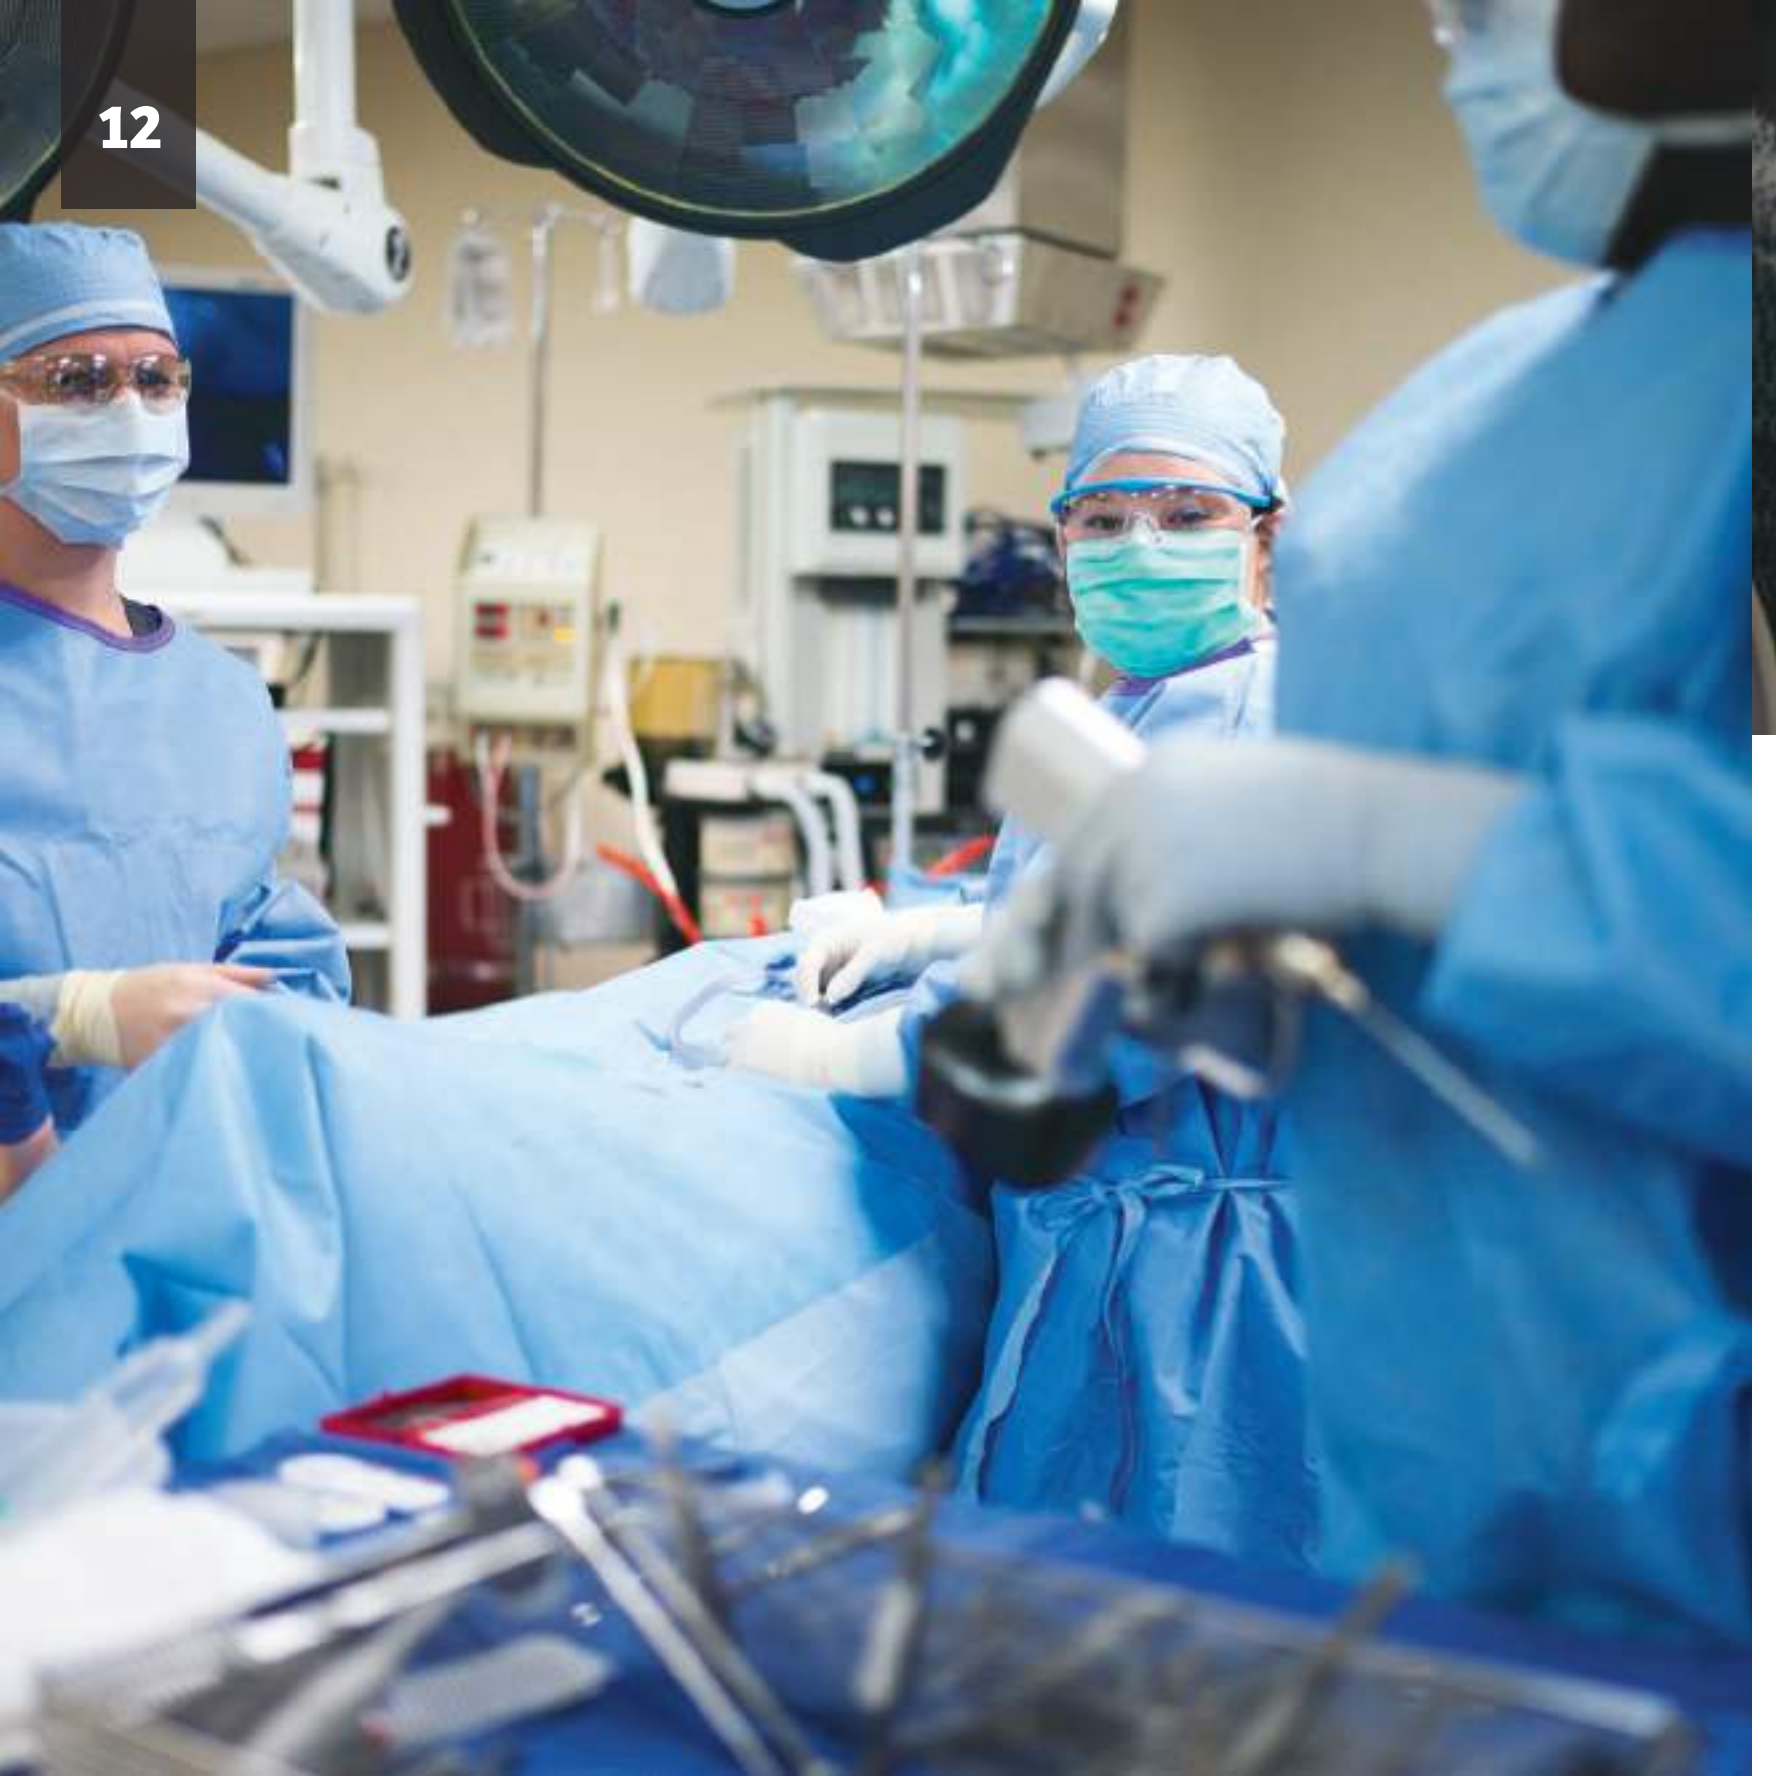

A photograph of Dr. Lei Wang, an Associate Vice President for Institutional Effectiveness at Tallahassee Community College. She is a middle-aged woman with short dark hair, smiling warmly at the camera. She is wearing a dark, patterned jacket with bright pink and black trim along the collar and cuffs. Her hands are clasped in front of her. The background is a bright, modern classroom or lab with white walls, several computer monitors on stands, and a person working at a desk in the distance. In the lower right foreground, a portion of a green and black robotic car is visible.

“TCC is a national leader in student success. I hope the College will become a national leader in STEM education as well.”

Dr. Lei Wang
Associate Vice President for Institutional Effectiveness
Tallahassee Community College

Dr. Lei Wang STEM Center

Born in a labor camp in China, where her parents were forced to live because of their anti-communist activities, Dr. Lei Wang chose to support the STEM Center to increase growth and job opportunities for TCC students and the community. The Dr. Lei Wang STEM Center was named to honor her gift to support the renovation of this facility. This generous gift was matched by her fellow members of the President's Circle, as part of the Foundation's "TCC. We Rise" campaign. The renovated facility now includes two study rooms equipped with 65-inch interactive touchscreen displays that will facilitate collaborative work among students. It also contains a state of the art video conferencing system that allows students to participate in discussions with peers at other colleges and universities.

Donor Namings

Al Elias Deeb, MD and Family Surgical Services Lab

Dr. Al Elias Deeb is a board-certified general surgeon who has been in practice for more than 40 years. As he began to close his surgical center, Deeb found he had an opportunity to invest in local programs that support our healthcare community. Tallahassee Community College became the beneficiary of his generosity, receiving almost \$260,000 in specialty surgical instruments. This tremendous gift touched every single healthcare program offered at TCC. To honor his gift, the surgical services laboratory at the Ghazvini Center for Healthcare Education was renamed the Al Elias Deeb, MD and Family Surgical Services Lab.

Dr. Monte Finkelstein Classroom

Dr. Finkelstein has been an institution at TCC for 35 years. He started teaching as an adjunct professor in 1982 and became a full-time professor in 1984. He retired as dean of the Behavioral, Social Sciences and Education Division this past summer. During his last year at TCC, Dr. Finkelstein was an integral part of the Foundation's FIRST CLASS project – a project designed to renovate 50 classrooms on TCC's main campus. He championed the cause that classrooms need to be interactive and engaging – for both students and faculty. His vision was realized with the total renovation of our first classroom, and to honor his dedication – this first classroom was named for Finkelstein.

Tom & Nesta Cumbie Entrance, Student Union

Tom & Nesta Cumbie have been involved with TCC for many years. Tom served on the TCC Foundation Board of Directors for 12 years, including a stint as president. He also served on a presidential search committee and was inducted into the Alumni & Friends Hall of Fame in 2016. Tom & Nesta have been focused on contributing to student success through their investments of time, talent and treasure. Their children, Pamela J. Butler and Tom Cumbie, made a significant gift to the College to honor their parents, and the naming of this entrance celebrates that gift.

We are grateful to YOU for your investment in student success at Tallahassee Community College!

Workforce Truck Driving

We are grateful for McKenzie Tank Lines. This Tallahassee-based company transports chemicals, propane, dry bulk goods and petroleum products throughout the Southeast. According to Jim Shaeffer, president and CEO of McKenzie Tank Lines, there is a shortage of truck drivers across the nation. He is hopeful that TCC's program will be a good source of drivers for McKenzie and other employers.

"We have supported a number of schools with equipment donations, but I was really excited to hear that TCC was starting a driving program right here in Tallahassee," said Shaeffer. "We could use another 25 to 30 drivers in our company today." According to Shaeffer, 70 percent of the tonnage of goods transported in the U.S. each year is transported by truck. "When you go to a convenience store, you take it for granted that there's going to be gasoline there. When you go to a grocery store, you take it for granted that the groceries are going to be there for you to buy. Those items were delivered by a professional truck driver."

McKenzie Tank Lines was the first company to invest in TCC's new Commercial Vehicle Driving program. Their donation of two tank trailers valued at almost \$30,000 provides critical machinery for our students to use as they learn this trade.

Eagle Legacy Society

The Tallahassee Community College Foundation's Eagle Legacy Society is a collection of individuals who have dedicated a portion of their estate to Tallahassee Community College. These members have supported TCC by making planned gifts that will continue their legacy and achieve their philanthropic goals. A growing number of people are realizing the enormous impact that planned giving can make and are incorporating these gifts in their estate plans.

Building Legacies Series

The Building Legacies Women's Leadership Summit was created to celebrate influential, diverse women who are making a substantive impact in our community. This year's program was expanded into a series, providing four unique half-day leadership sessions with the theme: *Women Who Lead, Serve and Inspire*. Each session captures the essence of the key role that women play in shaping organizations, communities and the next generation of amazing leaders in our community. Funds raised from these events support the Building Legacies Scholarship Fund.

This year's scholarship recipient was Annie Dorough. Annie is a wife and mother of three children. While her children were young, Annie had a career in children's daycare, allowing her to also care for her own. When her children reached school age, Annie was ready to go to college to pursue her dream of becoming a nurse. Thanks to those who have contributed to the Building Legacies Scholarship, Annie graduated in April 2017 with honors from TCC and will sit for the nursing boards later this summer. Annie has committed to work at Tallahassee Memorial HealthCare as a registered nurse. As soon as she is settled in her new career, Annie plans to begin the Bachelor of Science in Nursing program at TCC.

Thank you to our sponsors who have made Building Legacies possible this year!

RISE.

TCC. WE RISE.

The Campaign for TCC

The TCC Foundation embarked on a tremendous journey in August of 2015. As the College made plans to celebrate its 50th anniversary in 2016, the Foundation seized the opportunity to create an innovative campaign that would help launch us into our next 50 years. We wanted our next 50 years to be defined by *innovation* – elevating others to work smarter, think bigger and make the world around them better.

HOW?

- **Elevating the Educational Environment:** We wanted to be innovative in our teaching and learning environments to ensure our graduates are competitive.
- **Quality Degrees and Certificates:** We wanted to be innovative in providing a strong platform of A.A. and A.S. degrees, as well as certificate programs that answer our community's workforce needs.
- **Enriching Local Economy:** We wanted to be innovative in how we produce a workforce that enriches our local economy.

Today's students are tomorrow's leaders – tasked with solving the greatest challenges of our time. Will they have the capacity to work effectively across cultural and disciplinary boundaries? Will they make decisions with a keen understanding of their global implications? Will they be able to confidently adapt to a world in constant flux?

This comprehensive campaign was more than just a vehicle for students to attend TCC. It was about giving our students the strongest possible foundation so they can conquer the current and emerging demands of tomorrow's world. Together, we are creating a community of fulfilled, dynamic, socially responsible and courageous individuals who seek to make a difference. We are investing in our area's future workforce today so that our local businesses will be staffed by the best talent in the nation tomorrow.

THIS CAMPAIGN WAS CREATED TO PROVIDE FINANCIAL SUPPORT IN SIX KEY AREAS:

- 1 TCC Downtown Center for Innovation
- 2 TCC Gadsden Center
- 3 TCC Wakulla Environmental Institute
- 4 Teaching and Learning Environments
- 5 Bridging the Gap Scholarships
- 6 TCC Innovative Endowment

We are happy to report that this campaign surpassed our aggressive goal of \$10,000,000, raising a record \$14,538,808. And we did it in 14 months! The funds raised from this campaign will provide access and opportunity for every student that chooses TCC. They will provide innovative spaces, tuition assistance and program enhancements.

We are grateful to YOU for your investment in student success at Tallahassee Community College!

SOME OF THE CAMPAIGN SUCCESSES:

- ✓ Largest campaign in TCC's history
- ✓ Largest gift in TCC's history (\$7.9M)
- ✓ Over \$9M raised to support scholarships for programs like TCC's new Bachelor of Science in Nursing and Building & Construction
- ✓ Almost \$1M for the TCC Foundation's Endowment
- ✓ Over \$3.62M raised to support facilities on campus including:
 - Pankowski Family Honors Lounge*
 - Dr. Lei Wang STEM Center*
 - Refreshment Services Pepsi & Vending Athletic Training Center*
 - The renovation of 30 classrooms*
- ✓ Almost \$500,000 raised to support programs at TCC including:
 - Digital Rail Project for TCC's Business & Information Technology Program*
 - Moore Veterans Leadership Academy*
 - HVAC Program at the Gadsden Center*
 - Art for TCC's Fine & Performing Arts Center*
 - Cars for FPSI's law enforcement driving courses*
 - Truck trailers for TCC's new Commercial Truck Driving Program*
 - \$300,000 for TCC Spark! Entrepreneurial program*

Alumni Hall of Fame

Alumni Hall of Fame

The Tallahassee Community College Alumni & Friends Hall of Fame recognizes alumni and friends who have made exemplary contributions to their professions and communities, while demonstrating support of TCC and the TCC Foundation. The 2016 class includes 12 inductees — former students and special friends — whose accomplishments have brought prestige, honor and support to TCC:

Members of the TCC Original Advisory Committee and First District Board of Trustees: The original Advisory Committee provided guidance regarding personnel, curricula, finance and the general operation of the new College that was to open in 1966. In 1968, responsibility was transferred to the newly created District Board of Trustees. The individuals who made up the original Advisory Committee and the first District Board of Trustees were Julian Alford, Murden M. Ashcroft, Ruth Chapman, Sam Cunningham, Leo L. Foster, Earl Lambert, Charlie Macon, John A. Madigan, Jack O. McMillan, John S. Pigott Jr., Aubrey Lee Porter, Harry G. Smith and J. Edwin White.

Stanley James Brainerd was one of the earliest graduates of TCC, earning an associate degree in 1970. Jim now has his own law firm specializing in lobbying and holds the designation of certified professional lobbyist from the Florida Association of Professional Lobbyists.

Thomas Cumbie grew up in Gadsden County. After college and a stint in the military, he returned to his Gadsden County roots and joined his father working as a pharmacist in a drug store in Quincy. After selling the pharmacy in 1989, Tom became involved with Tallahassee Community College, serving on the TCC Foundation Board of Directors for 12 years, including a term as president.

Al Dennis entered TCC in the fall of 1970 with an eye on a future in law enforcement. He started his 31-year career with the Florida Department of Law Enforcement, where he went on to serve as Drug Abuse Resistance Education statewide coordinator, and FDLE's inspector general. He served on the TCC Alumni & Friends board for many years.

Markeal Devonte Dickey was one of Tallahassee Community College's most distinguished and promising young alumni. Markeal epitomized service to society and love for his community by giving generously of his time and talents to many campus organizations. Markeal passed away shortly after his graduation in 2015.

David C. Jones graduated from TCC in 1976. David founded the Florida Disabled Outdoors Association, an organization that has provided thousands of individuals with opportunities to participate in active leisure, and David himself has become a champion for accessibility and inclusion for people with disabilities.

Freda King is a proud TCC alum. She struggled with poverty for years before turning her life around at age 36. Freda now supervises DISC Village's re-entry program for inmates of the Leon County Jail and provides substance abuse and life skills education for clients of Refuge House. In 2010, when Freda King's soldier son was killed in Afghanistan, she and other family members created the Brandon Michael King Scholarship in his honor to help deserving students attend TCC, raising more than \$67,000 for this scholarship.

Karen B. Moore served as a member of the TCC Foundation Board of Directors, serving as its president for a term and leading two of its three capital campaigns, raising almost \$25M for the College. In 2007, Karen stepped down from the Foundation board and was appointed by the governor to the TCC District Board of Trustees, where she still serves today. Over the years Karen and her husband Richard have established two scholarships and funded the creation of the Moore Veterans Leadership Academy.

We are grateful to YOU for your investment in student success at Tallahassee Community College!

HALL OF FAME

ALUMNI *and Friends*

The Tallahassee Community College Alumni and Friends Hall of Fame recognizes those who have demonstrated exceptional service in support of the advancement and continued excellence of TCC. Their names are inscribed on the College's walls and serve as an inspiration to our faculty and students.

This structure was dedicated on October 17th, 2011 as part of the celebration marking the 50th anniversary of the founding of Tallahassee Community College.

The Pankowski Family, led by Mary and Joe Pankowski, has led by example. Mary has served as a member of the TCC Foundation Board of Directors since 2003, including two terms as president. She was the driving force behind the creation of the New Start Scholarship, which now totals over \$500,000. The Pankowski family has also provided the match for the extensive renovation of the Pankowski Honors Lounge and a classroom in the T.K. Wetherell Building.

Susan Payne Turner, a TCC alum, has been a member of the TCC Foundation Board of Directors since 2007, serving two terms as president. Susan was the driving force behind the creation of the President's Circle and led her family's efforts to invest in programs and scholarships offered at the Wakulla Environmental Institute to honor her parents William and Irene Payne. She has also served as chair of the TCC Alumni & Friends Association, a 26,000+ group that engages alumni from around the globe.

Dr. Hugh VanLandingham attended TCC on a scholarship. Although Hugh had not previously considered a career in medicine, that changed when he came across a brochure in TCC's resource room about a pre-med program at Florida State University. He eventually transferred to FSU, graduating in 1995 and then on to the University of Florida for his medical degree. He returned to Tallahassee Memorial HealthCare for the family residency program, serving as chief resident his final year, and continues to practice medicine locally.

Kim B. Williams, a TCC alum, put Tallahassee Community College on the map when it comes to advanced manufacturing training. Marpan Supply/Marpan Recycling, his family business, has been working in our community for 45 years. Kim always understood that the success of his own enterprise could not be separated from the success of the whole community – and he became a champion for workforce development in the Big Bend. In 2016, Kim and his Pensacola Street Partners made a significant investment in our College and community by making a gift valued at \$2.4 million to boost TCC's advanced manufacturing programs. The Kim B. Williams Advanced Manufacturing Center is truly a legacy of Kim's vision and dedication.

President's Circle Members 2016-17

The President's Circle is comprised of community and corporate leaders committed to advancing the mission of Tallahassee Community College. Unrestricted funds raised annually through the President's Circle enable College leadership to advocate, promote and seek support for TCC as we work to meet the higher education needs in our community. This year's projects funded by the President's Circle included renovation of the Dr. Lei Wang STEM Center, renovation of a classroom in the Science Building and funding for the Provost's Faculty iPad Project.
